Why the Pet Savings Plan?

Pet insurance is great because it helps cover costs for both emergency and routine pet care, but once you have sent the insurance company your money, it is gone. This is not so with the Pet Savings Plan – if you need to spend the money on an emergency, routine care, boarding, or you require withdrawal of your funds, these are all options open to you.

Package offers from other veterinarians are great because they provide a means for you to pay for your pet's routine care a little at a time, but not all pets need the same care, and these plans are not tailored to what your pet needs. With the Pet Savings Plan, you can apply the funds items you choose. In addition, those packages do not cover the cost of emergency care. If you are in the Pet Savings Plan then you can put the funds toward any service you wish, including emergencies.

Participate in the “Pet Savings Plan” today!

- Save up for your pet's bills before they happen
- Allow yourself to care for your pets the way you want to

How do I participate? Simply contribute to your pet's fund when you pay your monthly bills, or sign up for auto-pay. The credit will be applied to your account for use when you need it. This is a prepayment plan. Start saving for your pet today!

How much should I contribute? We recommend saving anywhere from \$30-\$60 each month to help cover the cost of your pet's healthcare. Each pet will have different savings requirements – contribute to your account accordingly.

What form are the payments? We will accept cash and debit/credit card payments. Please let us know if you would like us to charge your credit card monthly.

How can I keep track? You will receive a quarterly reminder of your current Pet Savings Plan account balance. We will also be happy to inform you of your current balance at any time.

Will the money be used for other pets? The balance in your account will be used for your pet(s) only. If you would like to donate money to the Angel Emergency Fund, please talk to our staff.

Will the money earn interest or other perks? No interest will be earned on the money in your account. Certain discounts may apply when procedures can be funded through the Pet Savings Plan.

Refunds are available – allow 10-14 business days for processing.
