

# West Chester Veterinary Care

## Requirements for lodging

### Cats:

- Good temperament
- Currently healthy
- Has had one of the following flea killing preventatives administered in the last month: Revolution/Plus, Advantage/Advantage multi, Vectra, Activyl, Frontline/Frontline Tritak/Frontline Plus, Cheristin
- Oral: Comfortis
- Collar: Seresto (collar – 8 mo)
- No fleas or flea dirt present
- Up to date on vaccines (Rabies, Panleukopenia, Calici virus, Rhinotracheitis)
- Indoor cats:
  - FeLV/FIV negative test in the last 5 years and/or FeLV vaccination in the past 3 years.
- Outdoor cats (if the cat EVER sets foot outside the house or a screened-in porch):
  - FeLV/FIV negative test in the last 3 years and/or FeLV vaccination in the past 12 months.

### Dogs:

- Good Temperament
- Currently healthy
- Has had one of the following flea killing preventatives administered in the last month: Revolution, Activyl, Frontline/Frontline Tritak/Frontline Plus, Advantage/Advantage Multi/Advantix, Vectra, Parastar, Effitix, Pet Armor (Plus)
  - oral: Simperica, Simparica Trio, Comfortis, Trifexis, Nexgard, Bravecto (3 mo), Credelio
  - collar: Seresto (8 mo)
- No fleas or flea dirt present
- DAP and Rabies vaccine current and given at least 3 days prior to lodging.
- BV in the past 12 months
- Negative fecal floatation in the past 6 months

\*All dogs get free play time tailored to their needs, preference, and personality. Some dogs may play with other dogs – they must be healthy, spayed/neutered (if over 7 months old), and have their Bordetella vaccine given at least 5 days prior to arrival. Any play with other dogs is supervised at all times.
